

## ***The Steinway Model 'D'***

Crystal Theatre's renowned Steinway model 'D', concert grand piano was gifted to the theatre by famed songwriter, pianist and music producer, Patrick Leonard, in 2012. Over the years, many famed artists (such as Chick Corea, Herbie Hancock, Bob Milne and Dick Kroeckel) have rhapsodized this very special instrument with their praises and accolades.

Considered the flagship of the Steinway & Sons line, the Model 'D' is the first choice of most concert pianists. It represents about five percent of all Steinway grand pianos produced. As of 2010, Steinway had built approximately 600,000 pianos; about 25,000 are Models 'D'.

Crystal Theatre's Steinway is one of only a few pianos, hand-picked by the company to be elevated to the classification of "Artist Series". It is truly one of the finest pianos in the US and we are so fortunate that it graces our stage!
